

Apps:

Apps in Salesforce are a group of tabs that help the application function by working together as a unit. It has a name, a logo, and a particular set of tabs. The simplest app usually has just two tabs.

There are two types of Salesforce Applications:

- 1) Standard Apps
- 2) Custom Apps

1)Creation Of App:

Click on setup and go to home page.

1. In Quick Find Box search and select App Manager.
2. Click: New Lightning App.
3. App Name: Book My Visa and click on next.
4. Navigate System: Standard Navigation Support

Form Factor: Desktop and Phone Click next, next

5. Move Objects from available items to selected items.
(Passport, Visa Slot, Payment).
6. Add System Administrator profile, available profile to selected profile.

Navigation Items

Choose the items to include in the app, and arrange the order in which they appear. Users can personalize the navigation to add or move items, but users can't remove or rename the items that you add. Some navigation items are available only for phone or only for desktop. These items are dropped from the navigation bar when the app is viewed in a format that the item doesn't support.
